HIGH PERFORMANCE SOLID RUNWAY DE-ICER

- Solid granular blend of Sodium Formate
- Fast Acting – Melts snow and ice on contact
- AMS 1431C Certified
- Heat & Clump Resistant with 75% less dust
- Can be applied with existing spreading equipment
- Exceptional shelf life

AIRSIDE SOLID

- FAA-approved specifications for use by commercial airports and military bases

Product Description

LNT Airside Solid is a fast acting sodium formate granular deicer that is virtually dust free and has a long shelf life due to its low water content. It is ideal for use on all airside operational surfaces as well as landside applications. LNT Airside Solid meets the strict requirements of AMS 1431C.

Product Advantages

- AMS 1431C Certified
- Heat and Clump Resistant with 75% less dust
- Long Shelf Life

Packaging

500 kg sack, 1000 kg sack

Product Data

Composition	Sodium Formate
Appearance	White irregular granule
Freeze Point	-22°C
Effective to	-18°C
Bulk Specific Gravity	0.92 - 0.95 @ 20°C
pH	11-12
Viscosity	–
Flash Point	Non Flammable
